

HOSPITAL AT HOME REMUNERATION AND BILLING

Discovery Health
2026

Healthcare professionals can bill for Hospital at Home admission as follows:

All practice types (including specialist physicians)

Day 1: 0190 or 0191 or 0192 + MHAH

From Day 2 until discharge (billed daily): 0109 + MHAH

The MHAH 30% modifier is meant to reimburse the clinician for the additional time spent with patients to facilitate admission into Hospital at Home and continuation of providing clinical oversight. However, if you are spending more than an hour with the patient, then you can add 0129 to the invoice for the first day (e.g., 0192 + 0129 + MHAH). In these cases, it is important that clinical documentation supports the prolonged consultation.

Specialist family physicians

Day 1: 6999/HHSFP1

From Day 2 until discharge (billed daily): 6999/HHSFP2

Don't forget to include all the other standard information, such as ICD-10 codes and service dates.
