

Green GUARANTEE

- ✓ Run fully **on renewable energy**
- ✓ Maximise your **carbon emissions reduction**

SUBSTANTIALLY REDUCE YOUR CARBON EMISSIONS AT A COMPETITIVE PREMIUM

Get charged a premium on your active energy charge per kilowatt-hour of electricity you use — no matter the time of use or your current tariff structure.

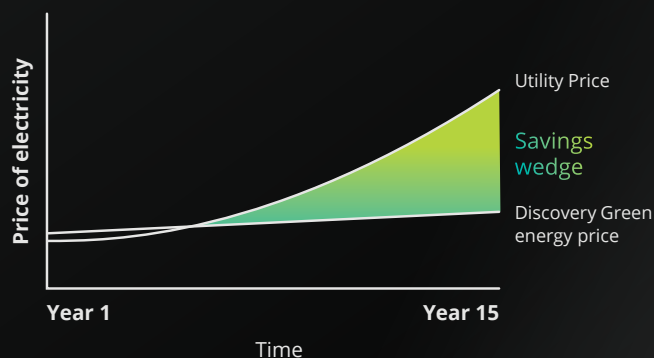

The longer your contract, the smaller the premium.

Lock in certainty. Save more over time.

Over the past decade electricity prices have become increasingly expensive — **increasing at CPI + 5% each year.**

With Discovery Green, your electricity prices are locked in, increasing only at inflation (CPI). While the Green Guarantee product comes at a premium, over time the lower expected annual increases compared to your utility will create a net saving to your business.

The Future of Energy. **Now.**
