

# Green SAVER

- ✓ Run on **±90% renewable energy**
- ✓ Maximise your **coverage**
- ✓ Maximise your **savings**

## GET SIMPLE, TRANSPARENT SAVINGS ON YOUR CURRENT COST OF ELECTRICITY

Get a flat discount on your active energy charge per kilowatt-hour of electricity you use — no matter the time of use or your current tariff structure.

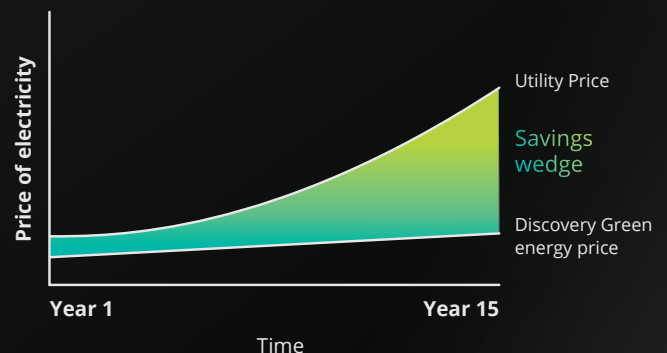

The longer your contract, the bigger your discount.

## Lock in certainty. Save more over time.

Over the past decade electricity prices have become increasingly expensive — **increasing at CPI + 5% each year**.

With Discovery Green, your electricity prices increase only at inflation (CPI). This helps you avoid unexpected price hikes and over time, creates a growing savings wedge over your utility.

The Future of Energy. **Now.**
